

Edexcel 16 mark style question:

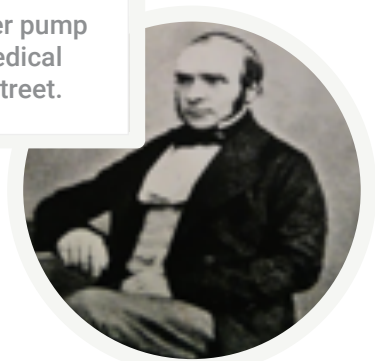

'Cholera germs had more to fear from Dr John Snow than they did from scientist, Louis Pasteur.' How far do you agree? Explain your answer.*

*Question taken from Edexcel textbook Medicine Through Time, c1250 - present, by Ian Dawson

In 1854, Dr John Snow took the handle off the Broad St pump, to prove that cholera was spread by infected water.

A communal water pump from Thackray Medical Museum's 1842 Street.

Dr Jon Snow

Louis Pasteur proved that germs caused disease. He published his Germ theory in 1861.

Pasteur's scientific experiment, on display in Thackray Medical Museum.

Louis Pasteur
