

Thackray Medical Museum Timeline Card Games

OCR Factors Affecting The People's Health, 1750 to the present

- Shade all the **significant individuals** in one colour.
- In a different colour, shade every ticket that shows the **work of local or national government**.
- Choose another colour and shade in any **beliefs, attitudes** and **ways of thinking** that had an impact on people's health.
- Find any tickets that show **science** or **technology** that improved people's health. Shade them in.
- Carefully cut out all the coloured tickets.
- Place each of the factors in the right places on your **Thackray Medical Museum Timeline**.
- Discuss your decisions with the person sitting next to you and/or your teacher.
